

QMasters Threat Intelligence IOC Service

QMasters advanced cybersecurity solutions, **Daily IOC Updates** with high-fidelity threat intelligence, **Seamless Firewall Integration** for real-time threat blocking, **Playbook Automation** to streamline incident response, **Breach Response & Digital Forensics** for rapid threat containment, and **Threat Intelligence, Penetration Testing & Vulnerability Assessments** to identify and mitigate risks. Our automated, scalable solutions enhance security posture and SOC efficiency

1. Daily IOC Update Service

- **Threat Intelligence:** High-fidelity Indicators of Compromise (IOC) updated every 24 hours.
- **Threat Coverage:** Includes malicious IPs, domains, URLs, file hashes, and C&C servers.
- **Integration:** Seamless access for automatic ingestion into firewalls (FortiGate, Palo Alto, Checkpoint)
- **Accuracy:** Data validation and enrichment ensure minimal false positives.

2. Seamless Firewall Integration & Automatic Threat Intelligence

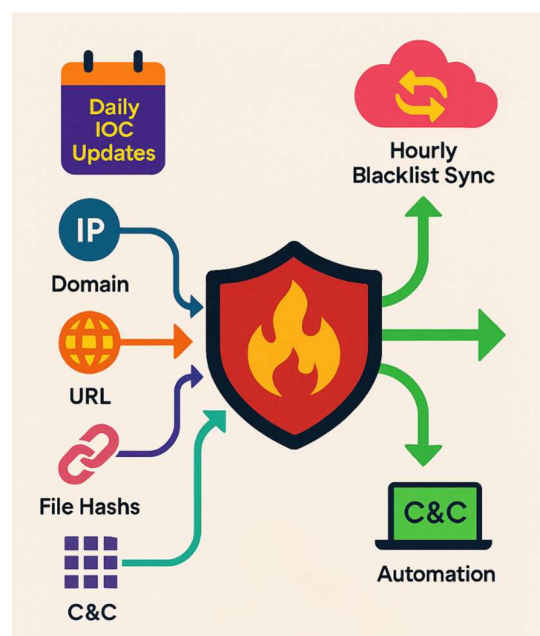

- **Automated Hourly Blacklist Sync:** Updated list of over 250K verified malicious indicators .
- **Real-time Blocking:** Immediate threat mitigation through firewall integration.
- **Enhanced Security Posture:** Reducing exposure to known threats without manual intervention.

3. Playbook Automation & Incident Response

- **Instant & Actionable Alerts:** Standardized format ensures quick decision-making.
- **Faster Incident Handling:** Enhances SOC efficiency by automating data collection and correlation.
